\$20 per class / 10 classes per semester

This fast-paced and fun one-hour after-school enrichment program includes so many fun activities that kids will never realize they're learning to think creatively, communicate clearly, and develop their social and emotional skills! All classes are taught by College-educated, experienced teachers and our curriculum is cumulative and sequential and has been tested and improved over decades and on several continents. We perform for each other in every class, and we'll have a no-pressure performance for families at the end of the Spring session
